HILLS AND FORD First Spanish Course

"Hills and Ford's *First Spanish Course* is without question the peer of any elementary Spanish grammar now upon the market. . . Its Spanish is of unquestioned authority and utility, whether the subject is approached from the literary or commercial point of view. It looks as though the long-looked-for ideal Spanish grammar for American pupils had at last been produced."

The following features of the *First Spanish Course* doubtless contribute to its unprecedented popularity:

There are few rules and many exercises.

All rules are given in both English and Spanish.

The exercises are in connected discourse.

The vocabulary is that of everyday life.

In the first thirty-seven lessons, which constitute a year's work for high school pupils, all the essentials of Spanish grammar are skillfully presented. Beginning with Lesson 38 these topics are taken up again in a systematic review, in which special cases and exceptions are fully treated. This segregation of the less important from the indispensable facts of grammar is one of the secrets of the eminent teachableness of the *First Spanish Course*.
